SUMMARY

Senior Experience Designer with 15+ years designing consumer experiences across iOS, Android, and web, specializing in healthcare and other regulated industries. Drove 3.3M new app downloads at CVS Health while meeting HIPAA, security, and accessibility requirements.

EXPERIENCE

CVS Health / Sr Experience Designer

2020 - 2026, Boston MA

- Designed enhancement features for mobile web header navigation, persistent calls to action (CTAs), and modal components, driving 3.3M new app downloads and a 3M monthly active user (MAU) increase within the first year of launch
- Designed a comprehensive global search component with net new AI-assisted functionality (natural-language queries and predictive suggestion results); increasing coverage of primary call center intents from 53% to 77%
- Led design of new animated search prompt suggestions, doubling weekly user engagement compared to existing trending search terms
- Led design enhancements that grew user engagement within the broader enterprise search experience by 25% over 12 months
- Designed onboarding flow for new customer-facing app, increasing click-through rate (CTR) to home screen from 23% to 25% after initial launch, while meeting security, legal, and HIPAA requirements
- Designed onboarding experience that drove 2M+ new push notification opt-ins in year one

PicIn / Co-Founder & Creative Director

2018 - 2020, Boston MA

- Creative lead on brand ethos and visual identity
